ADULT LEARNERS

Course Guide 2018

LSCollege.ac.uk
020 3757 3000

APPLY TODAY TO START WITH US IN SEPTEMBER 2018!

You may know exactly what you want to study - or you may be in need of some inspiration. In this guide you can check out the great range of courses on offer at Lewisham Southwark College, get inspired and prepare to take your exciting next step!

Once you have a course in mind, please apply via our website: www.LSCollege.ac.uk.

Alternatively, you can visit any of our campuses or call us on **020 3757 3000** to apply. If you've got any other questions, contact our Admissions and Student Support Centres on **020 3757 3000**, or come and see us at any of our three campuses.

Please also take note of the evidence you'll need to bring in to show us when you enrol. (We will not be able to complete your enrolment without this evidence, and it could delay you starting your exciting next step here at the College.)

I'VE ALREADY RECEIVED AN OFFER - WHAT HAPPENS NEXT?

You will receive an invitation to an enrolment session. The process will then be as follows:

- 1.** Attend your scheduled enrolment session
- 2.** Complete your English and maths initial assessment
- 3.** Fill out the enrolment paperwork with your tutors
- 4.** Show your evidence, complete your enrolment and have your photo taken. (If you're 19+, you'll be assessed for fees at this point)
- 5.** Pay your fees (if you have any to pay) and collect your College ID pass

You're then enrolled and we will let you know the time and date of your first class.

“

**It's the beginning of
something really
exciting, the next
step in your future**

”

MESSAGE FROM OUR PRINCIPAL

“

Adults make up the majority of our students and, every year, we are delighted to welcome thousands of adult learners as they begin an exciting new journey with us.

There are many reasons why you might want to study for a new qualification. Perhaps you're looking for a promotion in your current career, or want to break into a field you're passionate about, but lack knowledge in. Or you may have been out of employment for a few years and are thinking about training up in a specific specialism to boost your prospects and return to work.

Whatever your situation, we have a course that will suit you. We offer a wide variety of vocational courses in a fascinating range of subjects at many different levels - from beginners' classes to Higher Education qualifications.

At Lewisham Southwark College, you will learn in an interactive environment and be taught by expert tutors, many of whom have industry experience. Whichever course you choose, you will get excellent on-going support from our Student Support staff to iron out any problems and ensure that you get the most out of your College experience.

Keep reading to explore what the College can do for you!

**Carole Kitching,
Principal and CEO**

”

OUR CAMPUSES

We have three campuses across South East London - in Southwark, Lewisham and Deptford - all easy to reach by public transport.

Our £41m Southwark campus, located on The Cut opposite Southwark tube station, is the newest College campus in London, and offers an innovative and exciting learning environment.

Lewisham Way is our biggest campus, providing the broadest range of courses, while our Deptford Bridge campus specialises in construction training.

Across our campuses, our state-of-the-art facilities include:

- Professional kitchens and our award winning Phoenix restaurant
- Music and media editing suites
- Dance studios

- Tressillian theatre and technical theatre studio
- Fashion workshops
- Science labs
- Aircraft fuselage for Travel and Tourism training
- Mac suites

You'll also benefit from free Wi-Fi throughout our campuses, iPads and open learning areas.

Our £41m Southwark campus is the newest College campus in London, and offers an innovative and exciting learning environment

Waterloo East

WELCOME TO LEWISHAM SOUTHWARK COLLEGE

Every year, we welcome thousands of students as they begin an exciting new journey with us.

We provide vocational courses in a fascinating range of subjects which will help you move a step closer to your dream career – whether you're planning to go straight into employment or want to progress on to further study. We also offer apprenticeships in a number of key industries, which give you the opportunity to combine learning with working in a real job and earning a wage.

At Lewisham Southwark College, you will learn in an interactive environment where students are encouraged not just to learn, but also to ask questions and join in debates. You'll learn from tutors who are experts in their field, and will probably have worked in industry. And you'll get the opportunity to do work experience, which will give you a taste of working life and enable you to try out your new skills in the real world.

Whichever course you choose, you will get excellent on-going support from our Student Support staff to iron out any problems and ensure that you get the most out of your College experience.

Keep reading to explore what the College can do for you!

WHERE OUR COURSES GET YOU

Studying at Lewisham Southwark College opens up a huge range of different options for your future and, right from the start of your course, we'll encourage you to think about what you want to do next.

For many learners, studying will be a stepping stone to a more advanced qualification such as a Lewisham Southwark College Higher Education (HE) course, or a degree course at university. Alternatively, you may be eager to get straight to work and start applying what you've learnt in the real world.

Whatever your ambitions, our expert tutors, Progress Coaches and support staff are here to give you help and advice. We hold a series of progression events during the year where you'll have the chance to review your progress. As long as you're doing well on your current course, we'll talk to you about progressing to a course at the next level within the College.

Throughout your course, you'll also get the opportunity to go to careers fairs where you can talk to Higher Education providers and employers about where your course could lead. Many of our students progress on to degree programmes at highly regarded universities and other institutions, and to interesting roles in a wide range of industries.

With the right training and support, there's no reason why you shouldn't follow in their footsteps.

“

tutors, Progress Coaches and support
staff are here to give you help and advice**

”

IN THE NEWS

We're proud of the way our students and staff go 'over and above' to achieve great things – both within the College and in the outside world. Here's a brief snapshot of what they've been up to lately.

Top places for performing arts students

Our drama and dance courses have an incredible record for helping students to progress on to university – and this year's talented Level 3 students are no exception.

Eight drama students have beaten stiff competition to win places at leading universities and drama schools, while eight dance students have gained places at some of the country's most elite dance schools, conservatoires and universities – with many students getting multiple offers!

Among others, they have won places at LAMDA, the Royal School of Speech and Drama, Royal Welsh College of Music & Drama, Trinity Laban Conservatoire of Music and Dance, and Bird College.

A taste of Italy

The chance to visit another country and learn about its cuisine from professionals is a dream for any aspiring chef, so when 11 catering students from the College were invited to spend two weeks in Italy on a work placement, they grabbed the opportunity with both hands.

The students immersed themselves in every aspect of Italian cookery, enjoying a gastronomic tour of Venice before they got 'down to work', joining Italian students in traditional working kitchens and learning how to make delicacies such as Sacha Torte and plaise Millanaise.

Getting the inside track on construction

Our female construction students saw just what it takes to succeed in the industry when they went on a site visit to a prestigious new central London development being carried out by contractor Multiplex.

Organised in partnership with Women into Construction (WIC), the visit gave learners an amazing insight into the extension and modernisation of 5-7 St Helen's Place EC3, which is a highly challenging project within a conservation area in the City of London.

Bright future for fashion finalist

Talented fashion student Natalie Brotherton was named as a finalist in the Fashion Awareness Direct (FAD) Fashion Futures competition – and got to show her stunning designs in front of 300 guests at London Fashion Week.

Judged by industry experts including May Martin of BBC's 'Great British Sewing Bee' and Asos Womenswear Design Director Vanessa Spence, the competition challenged students from across London to create garments inspired by Indian streetwear.

BUSINESS LINKS

As a Further Education establishment, we really appreciate the importance of working with industry. We have strong links within the local community and beyond, and have built relationships with leading organisations such as Barclaycard, The Young Vic, The Southbank Centre and O’Keefe Construction.

Apprenticeships

In collaboration with local businesses, our Work-Based Learning team organises apprenticeships in four key sectors: Hospitality and Support Services, Creative Industries, Business, and Construction.

We have long experience of matching prospective apprentices with suitable employers, and support them throughout their apprenticeships in any way we can. To find out more about our apprenticeships, see pages 20-21.

Work experience

Work experience is a central part of most of our courses, and we draw on our many industry connections to set up placement opportunities in relevant companies for our students. On work experience, you’ll get the chance to apply the knowledge you’ve learned in a real world environment, and find out what it’s like to actually work in your chosen area.

GETTING A JOB

Studying is a stepping stone to finding a job. We believe that our role is to prepare you for working life by giving you the key employability skills that will make you attractive to employers, and help you to be a useful asset once you're in the workplace.

With most of our teachers having industry experience, we ensure that what you learn at College is directly relevant to the world of work. During your course, you'll also have plenty of opportunities to work with other students to help you develop important teamworking and communication skills.

To help you find the right job opportunities, our highly qualified Guidance and Progression Officers run an expert job search service, which is available either one-to-one or through workshops. This team is also on-hand to help you put together a great CV, search for work experience or voluntary work, and get ready for job interviews.

“

FEES AND FUNDING INFORMATION

We appreciate that the costs of coming to College can quickly mount up. It's important to us that attending College is affordable, and that you have access to any financial support for which you're eligible.

Advanced Learner Loan

The Advanced Learner Loan is designed to support people aged 19 or above with the cost of their tuition fees on Level 3 to Level 6 courses, including Access to Higher Education diplomas. The loan, which is not means-tested and does not require a credit check, is designed to pay for all or part of the tuition fee. Repayments are only taken once your income is about £21,000 per annum, and if you progress on to higher education from an Access course and achieve your degree, the loan is written off, regardless of how much you go on to earn.

For more information on the Advanced Learner Loan, please visit gov.uk/advanced-learner-loan/overview.

NUS Extra Card

The NUS Extra Card gives students access to over 200 exclusive discounts with a range of beauty, entertainment, eating out, music and travel brands. You can sign up for an NUS Extra Card, which costs £12, at the NUS website (nus.org.uk/en/nus-extra/).

Care to Learn scheme

If you are a parent aged under 20, you may be eligible for the Care to Learn scheme which provides up to £175 per week to help with childcare costs while you study. You can only claim this benefit if your child's other parent is not available to provide childcare and not claiming Childcare Tax Credit. Find out more at gov.uk/care-to-learn/overview.

APPRENTICESHIPS

An apprenticeship is an ideal way to get out into the world of work, earning a real wage while studying – and there’s never been a better time to start one. The new Apprenticeship Levy, introduced by the government in May 2017, is great news if you’re thinking about doing an apprenticeship because it means that larger employers are investing more in their apprentices’ training and seeing them as a vital part of their staff.

We offer a wide range of apprenticeships in:

- Business
- Construction
- Creative industries
- Hospitality and support services

To apply for an apprenticeship you need to be 16 or over, living in England and not in full-time education. You will also need to be committed, motivated and have a willingness to learn new things while you study.

As an apprentice, you will:

- Earn real wages and get holiday pay
- Gain experience that will give you a competitive edge
- Work alongside experienced staff
- Gain job-specific skills, knowledge and industry-standard training
- Get a headstart into a new and rewarding career
- Meet new people and explore new opportunities
- Study towards a related qualification (usually one day a week)

Apprenticeships are at Level 2 and can run for 12 to 24 months. Advanced Apprenticeships are at Level 3 and can run for a period of 18 months or more.

There are opportunities in some areas for Higher Level Apprenticeships at Level 4.

Each occupation has its own framework set by industry which will enable you to develop the practical skills and knowledge you need for the workplace.

An apprenticeship has an equivalent education level and can be:

- Apprenticeship - equivalent to five GCSE passes
- Advanced Apprenticeship - equivalent to two A-level passes
- Higher Apprenticeship - can lead to NVQ Level 4 and above, or a Foundation Degree

As an apprentice you are employed from day one and will learn in the workplace but will also attend College, usually one day a week, depending on your chosen vocation. Your employer must be willing to support you while you train and we can discuss the requirements with them. New apprentice opportunities are posted and regularly updated on our website.

Our friendly Work-Based Learning team can give you lots of advice and support – from helping you choose the right apprenticeship to securing employment and beyond. We will also provide you with your own personal assessor to guide you throughout your apprenticeship.

Our apprenticeships run all year round, so you don't need to wait until term-time to start one.

We'll help and advise you on your next steps once you've completed the apprenticeship. We'll also help you stay on track with your learning through our online system.

“

Lewisham Southwark College
was the starting point that led me
to achieve my lifetime ambitions

”

CASE STUDY: AWAL KHAN

For Awal Khan, two years spent studying IT at Lewisham Southwark College has led to Higher Education and entrepreneurial success – with further study at Masters level now in his sights!

After his BTEC Level 1 and BTEC Diploma in IT at the College, Awal progressed on to a BSc in Computing at London South Bank University. He's now looking for a graduate job but has meanwhile used his initiative to kick-start his career in programming.

"I've used my skills and knowledge to work on my own project, building an app called Lapizzeria," he explains. "It's a food app which allows users to place food orders online, make payments and request delivery or collection."

Looking back at his time at the College, Awal says: "The teachers and staff were always warm, welcoming and inspirational. I received a lot of technical support and benefited from great resources, and I gained skills in IT, numeracy and communications. The College's encouragement led me to get the highest grade in my Level 1 course, which is something I never thought I could achieve."

He adds: "I plan to study for my Masters in the next couple of years, but before that I'm looking for a graduate job in my field. My aspiration is to be a programmer or software developer, and to work in a well-respected company."

"Lewisham Southwark College was the starting point that led me to achieve my lifetime ambitions."

HIGHER EDUCATION (HE)

For many students, studying for a course at Lewisham Southwark College is a stepping stone to a Higher Education course, which enables them to improve their knowledge and enter employment at a higher level.

We provide a range of Higher Education courses (HNCs, HNDs and Foundation degrees) in Business, Business Information Technology (IT), Dance, Drama, Music and Early Years, as well as Diplomas in Teaching. We also have partnerships with a number of leading universities, enabling you to 'top up' your HE qualification to a full Honours degree.

Why study HE courses at Lewisham Southwark College?

There are lots of advantages of studying for an HE course with us, including:

- 45% lower tuition fees than universities (around £5,000 compared to over £9,000 a year)
- Much higher ratio of tutor to student teaching, with smaller class sizes
- Dedicated HE learning hub at our Southwark campus which hosts fantastic new facilities
- Central London location close to leading businesses, enabling you to gain valuable work experience as part of your course
- Option to gain a shorter HE qualification and enter employment, or continue to a 'top-up' third year, gaining a full degree
- Strong links with Higher Education providers including Goldsmiths, University of the Arts London, University of East London and Canterbury Christchurch University

OUR HE COURSES

Higher National Certificates and Higher National Diplomas

Higher National Certificates (HNCs) and Higher National Diplomas (HNDs) are practical, career-focused courses, taught by tutors with industry experience, which prepare you for a specific career. Generally, HNCs take one year to complete, whereas HNDs last two years.

These courses are ideal if you want to find a job or progress quickly within the workplace, and are especially useful if you don't need a full degree to do this.

Foundation degrees

Foundation degrees combine academic study with practical experience of how it applies in the 'real world'. You might think of a foundation degree as a type of 'mini degree' in that it enables you to gain the fundamental knowledge of the subject you're studying.

A foundation degree typically takes two years to complete full-time (but it can sometimes be taken part-time),

and is the equivalent of two-thirds of an honours degree. If you want to gain the full degree, you can obtain this through further study.

'Access to Higher Education' options

These programmes act as a stepping stone to HE and are generally designed for people who do not have traditional qualifications. After completing an Access course, you can progress on to an HE qualification.

If you'd like to find out more about our HE qualifications, or want advice about your future prospects, our expert advisers would love to hear from you.

CASE STUDY: HIGHER EDUCATION ELENA CEBOTARI

Elena Cebotari is a second-year student, studying a Higher National Diploma (HND) in Performing Arts at Lewisham Southwark College.

Originally from Moldova, Elena said: “I chose the HND as I wanted to learn a trade with less pressure than a traditional degree. And the staff at Lewisham Southwark College are really friendly and helpful.

“I have a two-year-old son, so juggle him with my studies. It’s full-on, but rewarding. I really enjoy the hands-on nature of the course and you learn a lot about all the different areas of performing arts – including acting, voice, dance, text analysis and technical theatre. We’re developing our CVs and understanding about the professional world of the creative industries.

“I think these areas of knowledge and skills will make me attractive to an employer market, and I intend to go on to complete my degree with a top-up at a London university.

The staff here have shown me how to get better and improve my work – and I’ve already started seeing a difference, after only two months. We also get amazing professional work placements – like the Plague Event at the National Maritime Museum.

“My top tip to students who want to join this course? I’d say be prepared – it’s fun, but also intense. They will make you work hard.”

“

My top tip to students who want to join this course? I'd say be prepared - it's fun, but also intense. They will make you work hard

”

HELP AND SUPPORT

We want to ensure you have the best possible experience at Lewisham Southwark College. Whether you've already chosen a course, or need a bit of help deciding, we can support you. Our dedicated team is available to assist you in selecting the right programme and help you settle in and make the most of your time at the College.

Admissions

We want to make enrolling at Lewisham Southwark College as easy as possible for you.

Once you've applied, we'll consider your application and arrange for you to come to the College so you can find out more about where and what you'd like to study. During the admissions process, our staff will talk to you about your chosen programme and give you a taster in your preferred subject area.

You'll also sit an English and mathematics assessment, and have an interview with a member of our teaching staff to make sure you're put on a course at the right level for you.

We then confirm the outcome in writing, and keep in contact with you as you prepare to join the College.

“

**We want to make
enrolling at
Lewisham Southwark
College as easy as
possible for you**

”

Advice and guidance

Our College has friendly and highly experienced staff on hand to offer advice about courses, careers and any issues you may need assistance with. This might include fees and finance, housing or personal problems that

might prevent you getting the most out of your experience.

Our customer advisers are also on hand to discuss available programmes and provide you with step-by-step support through the admissions process.

Learning support

We understand that there may be times when you need help and support in class.

This is why the College offers one-to-one and small group support for:

- Learners who have disabilities or additional needs
- Students requiring assistance with English and mathematics
- Those with dyslexia

You are also welcome to come to one of our Learning Support and Resource Centres. Our team will be able to help you with topics such as:

- English and mathematics
- Essay writing
- Referencing styles
- Revision techniques
- Study and research skills

English and mathematics

Most employers agree that good English and maths skills are one of the most important things they look for when considering taking on an employee – and with competition for jobs increasing, it's crucial you build up your confidence in these skills to succeed in any career.

In fact, under government rules, if you got a grade D or below in English or maths at GCSE at school, and are under 18, you'll need to retake the exam. At Lewisham Southwark College you'll be able to do this alongside your chosen College programme.

**College isn't just
about learning – you
can also join clubs
and societies**

Our teaching staff make English and maths lessons fun - to help maximise your achievement in these important qualifications and improve your prospects when you finish your programme with us. If you need additional help, staff from our learning support and resources team are available to assist.

Enrichment, clubs and societies

We know that studying can be full-on, and it's important to take time out to relax.

This is why we offer a range of enrichment activities to help you unwind. These include:

- > Film club
- > Street dance
- > Zumba
- > Sporting activities and events
- > Photography club

OUR COURSES

We offer a wide range of courses in an exciting variety of subjects at different levels. Find out more about the courses available in the following pages, and you can then apply online or request an application form by calling us on **020 3757 3000**.

ART

If you're good at art and have an eye for design, studying for one of our vocational art courses post-16 will open up a range of fascinating and fulfilling careers.

You might decide to become a graphic designer, developing concepts for advertising, information or entertainment. Or you could choose to go into animation, creating the visual effects that bring computer games and films to life. Whatever your ambitions, we can equip you with the skills you need to get started.

YOU COULD EARN...

Artist: £16,000 starting salary, £20,000 with 3-5 years' experience

Graphic designer: £21,000 starting salary, £28,000 with 3-5 years' experience

Why study Art at Lewisham Southwark College?

- We have strong links with leading companies in the world of art and design, enabling students to gain valuable work experience
- Our courses are designed to help you discover your inner talent, exploring and experimenting with a wide range of techniques. You'll be encouraged to build a strong portfolio of material by the end of your course
- Depending on your chosen course, you may get the chance to exhibit your work at our end-of-year show. There are also opportunities to visit art galleries, exhibitions and multimedia / animation design studios

BEAUTY

If you've always been fascinated by beauty, why not turn your passion into your career? Studying on one of our highly-regarded vocational courses post-16 will open up a wide range of exciting job opportunities.

You might decide to work in the booming spa therapy industry as a beauty therapist, delivering advanced facial and body treatments, or become a nail technician, focusing on nailcare and nail art. Or you may choose to train as a make-up artist specialising in film and TV work. Whatever your ambitions, we can equip you with the skills you need to take your next steps.

YOU COULD EARN...

Beauty therapy: £14,000 starting salary, £16,000 with 3-5 years' experience

Beauty salon manager: £27,000 average salary

Why study Beauty at Lewisham Southwark College?

- You'll learn a wide range of topics covering key beauty concepts – including skincare treatments, makeup application, waxing, threading, body massage techniques and promotional activities
- You'll receive enterprise training, and get the chance to participate in industry-recognised competitions where you can put your knowledge to the test
- You will benefit from our tutors' long experience in the beauty industry, and train in our on-site salon, T'ien
- Our close links with leading beauty businesses will enable you to gain valuable work experience, giving you the rounded training and skillset employers are looking for

GENERAL ENTRY REQUIREMENTS:

DANCE

If you're passionate about dance and would love to make it your career, studying on one of our vocational dance programmes post-16 will bring you a step closer to your dream.

Whether you want to become a performer, choreographer or dance teacher – or to explore other dance-related careers such as dance journalism or dance science – we can equip you with the skills and confidence you need to succeed.

YOU COULD EARN...

Dancers & choreographers:
£22,000 starting salary,
£25,000 with 3-5 years'
experience

Why study Dance at Lewisham Southwark College?

- Our industry experienced tutors provide a great balance of specialist training and academic support
- There are lots of opportunities to perform in both our own dance studios and 96-seat Tresilian Theatre, and externally at local theatres
- We offer a fantastic enrichment programme: students regularly see national and international performances throughout the year at venues such as Sadlers Wells, The Roundhouse and The Place
- Former students have gone on to gain places at prestigious vocational schools and conservatoires – such as Trinity Laban, London Contemporary Dance School, Rambert School of Ballet and Contemporary Dance and Bird College – as well as at the leading universities for dance

GENERAL ENTRY REQUIREMENTS:**L2: 3** GCSEs B-D / 6-3 (in 2017 GCSEs) or relevant industry experience**L3: 3** GCSEs A*-C / 9-4 (in 2017 GCSEs) or relevant industry experience**Start Date:** September 18

DRAMA

If you've always loved being on stage and dream of a career as an actor, studying on one of our vocational drama programmes post-16 will bring you a step closer to success.

Benefiting from our industry-experienced tutors and close links with theatres and theatre companies across London and beyond, a high proportion of our students gain places at prestigious drama schools before finding work in their chosen fields.

Why study Drama at Lewisham Southwark College?

➤ We provide a great balance of specialist training and academic support: students on all our courses train daily in contemporary and classical performance, musical theatre, singing and dance techniques

➤ There are lots of opportunities to perform throughout the year both in our own Tressillian Theatre and externally at local theatres including the Young Vic, the National Theatre and the Cutty Sark

➤ In 2015, 93% of our drama students progressed to Higher Education – the highest in the sector. Our students have gained places at elite drama schools such as Rose Bruford, The Royal Central School of Speech and Drama, LAMDA and Mountview, and at leading universities for drama including Queen Mary University, University of York, University of Birmingham and University of Bristol

➤ Our graduates can be found working in TV on EastEnders and Luther, on the national tour of The Gruffalo and international tour of The Rat Pack, and performing in the West End

“

EARLY YEARS

Working in Early Years is extremely rewarding but demands essential knowledge and expertise. If you'd love to work with children, our highly regarded vocational Early Years courses will open up a wide range of interesting and fulfilling careers.

You might decide to become a nursery nurse, caring for young children in nursery settings, or specialise as a child or Early Years officer, providing support and advice to families with babies and young children. Alternatively you may want to continue studying and become a primary teacher.

Why study Early Years at Lewisham Southwark College?

- Depending on your chosen course, you could learn about supporting children's and young people's development, managing paediatric illness and injury, partnership working, equality, inclusion safeguarding and first aid
- Having successfully completed your qualification, you'll be ready to work confidently with children and young people, taking on a challenging and interesting job within the care industry
- Our tier-level offering enables you to continue to Higher Education level, building on your abilities and helping you to secure a more senior position within the profession

GENERAL ENTRY REQUIREMENTS:

E3: No previous knowledge or formal qualification is required. Initial assessment will be required

L1: 3 GCSEs D-G / 3-1 (in 2017 GCSEs) or relevant industry experience

L2: 3 GCSEs B-D / 6-3 (in 2017 GCSEs) or relevant industry experience

Start Date: September 18

YOU COULD EARN...

Fashion designer: £19,000 starting salary,

FASHION

If fashion is your passion, why not make it your career? Studying on one of our vocational courses in fashion post-16 will boost your chances of succeeding in this inspiring, fast-paced industry and give you the skills and knowledge that employers are looking for.

Why study Fashion at Lewisham Southwark College?

- We provide an inspiring environment and plenty of opportunity to gain practical experience and hone your specialist skills
- Past students have taken part in high profile fashion competitions and even shown their designs at London Fashion Week – gaining great exposure within the industry
- Our close links with leading designers and fashion companies mean you will get the opportunity (depending on your course) to benefit from work experience opportunities and talks by visiting speakers from the fashion industry
- You'll study in large, well-equipped workshops at our brand new Southwark campus

YOU COULD EARN...

Care worker: £13,000 starting salary, £17,000 with 3-5 years' experience

Social worker: £24,000 starting salary, £39,000 with 3-5 years' experience

HEALTH AND SOCIAL CARE

Working in the health and social care profession can be extremely rewarding, but the role comes with enormous responsibility, and demands essential knowledge and expertise.

Studying on one of our government-recognised vocational health and social care programmes post-16 opens up a range of career opportunities in the sector. You may decide to become a care worker, giving care to elderly and disabled people, or a social worker, protecting those who are vulnerable and socially-excluded. Whatever your ambitions, we can equip you with the confidence and skills you need to pursue a career in this sector.

Why study Health and Social Care at Lewisham Southwark College?

➤ You'll get the chance to learn about a broad range of topics including child development, paediatric first aid, health and safety, communication,

safeguarding children and young people, diversity and rights, sociology, and psychology (depending on your chosen course)

- You'll benefit from a dynamic mix of lectures, seminars, group discussions, lab demonstrations and group and individual presentations
- Some of our programmes include work experience, enabling you to put your newly acquired skills to the test and get an insight into what it's really like to work within the profession
- Successful completion of the course will enable you to apply for a job within the industry, or pursue higher level education in health and social care before entering full-time employment in a more senior position

IELTS AND CELTA

IELTS (International English Language Testing System) is the leading international test for English language proficiency, recognised by universities and employers, professional registration bodies, immigration authorities and governments around the world. Most universities in the UK need a 6.0 or 6.5 grading for all students who want to study at university. We offer a wide range of courses that can help you get up to that standard in time for the beginning of the new term.

IELTS Summer Intensive - for candidates who want to improve their language skills and develop strategies that will help them achieve the score they need on the IELTS tests. Courses begin every two weeks in the summer. Each course uses different content, so if you need a longer period of study, you can take more than one course.

IELTS Preparation and Practice - for candidates who need language development as well as test awareness and strategies. (Daytime and evening.)

Academic Writing Workshop - a small group course that enables students to benefit from individual attention as they improve their writing skills. (Evening.)

IELTS Practice Speaking Test - an opportunity for candidates planning to take the IELTS to experience a mock speaking test, and to receive a one-to-one session of feedback and advice. The sessions last 25 minutes. (Evening.)

Cambridge English - Advanced (CAE) & Cambridge English: First (FCE).

These courses are for students who want to take a high-quality, globally recognised English language test, demonstrating an advanced or strong intermediate level of English for study, work and life in an English-speaking environment. There is emphasis on accuracy of grammar and vocabulary as well as the skills of reading, writing, listening and speaking.

General English courses - These courses are for non-native English speakers (EU and worldwide) who want to improve their English language.

IT AND COMPUTING (DIGITAL SKILLS)

One of the fastest-growing sectors in the UK, the digital skills sector is continually opening up exciting new career opportunities.

Studying on one of our vocational digital skills programmes post-16 could lead to a role as an IT project manager, supervising technical projects within a company, or an IT user support technician, providing expert help and advice to customers. Alternatively, you might decide to become a website designer, creating and maintaining websites for a variety of clients. Whatever your career ambitions in the digital skills sector, we will equip you with the expertise and experience you need to succeed.

YOU COULD EARN...

IT user support technician: £22,000 starting salary, £33,000 with 3-5 years' experience

Website developer: £18,000 starting salary, £32,000 with 3-5 years' experience

Why study IT & Computing at Lewisham Southwark College?

- You'll get the chance to use industry-standard software to complete challenging tasks such as programming and mobile app development, and also benefit from our impressive hardware development facilities, specialist IT rooms and laboratories
- As our teaching staff have extensive experience of working in the information technology and computing industries, you'll gain the well-rounded skills and up-to-date knowledge employers are looking for
- We have excellent links with some of the Capital's largest and best-known organisations, enabling you to benefit from valuable work experience. Some of the companies where our students have undertaken placements include Cisco Systems, PricewaterhouseCoopers, Morgan Stanley and Bloomberg

MEDIA

The media business is a hugely engaging and exciting place to work, while also being highly competitive.

Studying on one of our vocational programmes post-16 will give you the edge as you look for your first job and open up a range of interesting career paths. You might decide to become a graphic designer, for example, or a filmmaker or broadcast equipment operator. Whatever your ambitions, we can help to maximise your chances of succeeding in this field by fine-tuning your skills and nurturing your talent.

Why study Media at Lewisham Southwark College?

- Depending on your chosen qualification, you'll get the chance to study music videos, TV and radio programmes and films, and then make your own. Or you could choose to study all aspects of media production

- Our tutors have significant industry experience, enabling them to equip you with invaluable inside knowledge and the up-to-date skills employers are looking for
- We have excellent links with major broadcasters and TV and film production companies, enabling you to gain valuable work experience which will give you a first-hand perspective on what it's really like to work in the media industry

YOU COULD EARN...

Graphic designer: £21,000 starting salary, £28,000 with 3-5 years' experience

Broadcasting equipment operator: £16,000 starting salary, £25,000 with 3-5 years' experience

MUSIC

Whether you dream of performing in a band, becoming a songwriter, working in music production, or pursuing a business career within a music company, studying on one of our vocational programmes post-16 will help you to succeed.

You will gain the essential expertise and music-industry experience that you need in order to progress towards the goal of working professionally in the field.

Why study Music at Lewisham Southwark College?

➤ Our programmes provide a dynamic mix of practice and theory: you will learn how to create music using industry standard software, gain first-hand experience in executing a DJ set at a live event, or study key music genres and learn repertoire from the 1950s to the present day

➤ Our tier-level program structure means that you can keep building up your skillset until you feel ready to apply for the type of role that interests you. Many of our students progress on to university degree courses

➤ Former students have gone on to pursue successful careers in performance and song-writing, music production, or in business development roles for major companies such as Yamaha Music London

YOU COULD EARN...

Musician: £19,000 starting salary, £32,000 with 3-5 years' experience

Music development manager: £25,000 starting salary, £45,000 with 3-5 years' experience

SCIENCE

If you're inspired by the physical and natural world, and like the idea of applying scientific principles to make new discoveries and improve lives, a career in science could be for you.

Studying on one of our vocational science programmes post-16 will open up a range of interesting career options. You might decide to become a laboratory technician, supporting scientific research through laboratory work, or a biochemist, investigating the characteristics of living organisms. Whatever your career ambitions, we can equip you with the skills you need to take your next steps.

Why study Science at Lewisham Southwark College?

➤ We offer you a range of courses that cover the fields of biology, chemistry and physics. Depending on the programme you choose, you might study cell structure, human physiology, genes and inheritance, ecology, forensic

evidence collection and analysis, prescription and health care products, and vitamins and minerals

- You'll learn in a stimulating environment: our highly experienced lecturers will teach you the fundamentals of your chosen specialism, and you'll also get the chance to put your skills to the test in our fully-equipped, modern laboratories
- At Lewisham Southwark College, we take you beyond academic subject knowledge, and give you the professional skills and practical knowhow to maximise your career prospects in the science industry, or prepare you for further study

SPORT

Most of us like to watch sport, but pursuing a successful career in the industry requires a high level of commitment and specialist training.

Studying for one of our vocational sports qualifications post-16 leads the way to a wide range of exciting careers. You may want to play your chosen sport professionally, share your passion for sport with others by becoming a sports coach or fitness instructor, or work 'behind the scenes' as a leisure club manager. Whatever your ambitions, we can equip you with the skills you need to reach your goal.

Why study sport at Lewisham Southwark College?

- You can study and train for an exciting range of sport specialisms including fitness instructing, activity leadership, personal training and playing sport, as well as strengthening your technical, tactical, physical and psychological development (depending on your chosen course)

- Having successfully completed one of our programmes, you'll have the skills and knowledge to enable you to continue on to Higher Education and study your specialism in greater depth
- You'll benefit from training at the Crystal Palace National Sports Centre which features a state-of-the-art gym, an Olympic size swimming pool, athletics stadium indoor track, football pitches, exercise studios and many other facilities

YOU COULD EARN...

Professional sportsperson: £12,000 starting salary, £22,000 with 3-5 years' experience – but the sky's the limit!

TEACHING

Few jobs are as rewarding as teaching – which is why it’s one of the most popular choices of career. Studying for one of our well-respected teaching qualifications will open the door to a wide range of interesting careers such as becoming a teaching assistant, working in the training sector or in primary or secondary schools.

Whatever your career aspirations, if you’d love to pass your knowledge on to the next generation, we can give you the skills you need to succeed.

Why study Teaching at Lewisham Southwark College?

- Depending on the course you choose, you will have the opportunity to study a range of relevant and interesting topics within education studies. These include topics such as equality, diversity and inclusion in work with children and young people; understanding and using inclusive teaching and learning approaches in education and training; literacy and numeracy in the classroom; and planning and delivering a micro-teaching session

- Our expert tutors will work with you to develop a variety of skills – from study skills to teaching, learning and assessment techniques
- Thanks to our long experience in training teachers, we can advise you on the most appropriate training and qualifications, based on the kind of teaching that inspires you

TECHNICAL THEATRE

Set design...sound and lighting...stage management...costumes and makeup – so many disciplines come together to support a performance, and each offers a fascinating range of job roles. For example you might want to become a set designer, building stage sets and props to support a performance, or a stage manager, who oversees and directs theatrical productions.

Whatever your ambitions, studying for one of our vocational technical theatre qualifications will equip you with the skills you need to get started in this exciting and challenging field.

Why study Technical Theatre at Lewisham Southwark College?

➤ Students on our courses experience the full range of back stage disciplines that support a performance – and there are plenty of opportunities to put your skills into practice, with performances throughout the year

both in our own Tressillian Theatre and externally at renowned local theatres

- You'll benefit from theatre trips, workshops, training opportunities and work experience, as well as participating in major nationwide competitions such as The Royal Opera House Design Challenge and National Theatre Connections
- Former students have gone on to gain places at prestigious drama schools such as RADA, Rose Bruford, Academy of Live and Recorded Arts, The Royal Central School of Speech and Drama, LAMDA and Mountview, and many now have successful careers in the West End, on national and international tours and in major production companies

TRAVEL AND TOURISM

Working in the ever-changing travel and tourism industry could take you anywhere in the world. You might be aiming for a role as airline cabin crew, delivering customer service at 30,000 feet, or you may want to become a travel agent, helping people to plan the holiday of their dreams.

Whatever your ambitions, studying for one of our vocational travel and tourism qualifications post-16 will give you the specialist skills and knowledge you'll need to start your journey.

YOU COULD EARN...

Cabin crew: £19,000 starting salary, £33,000 with 3-5 years' experience

Travel agent: £16,000 starting salary, £24,000 with 3-5 years' experience

Why study Travel and Tourism at Lewisham Southwark College?

- Depending on your chosen specialism, you could learn about customer service, travel planning, recommending holidays, worldwide destinations, special interest holidays and independent travel
- Our practical and applied approach to training will provide you with the real-world skills and knowledge employers are looking for and give you a head start in this competitive industry
- You'll receive first-class tuition from expert lecturers who draw on their own long experience in the industry, and learn in facilities which reflect what you will find when you begin work – such as our mock-up aircraft cabin
- Former students have taken up exciting roles such as cabin crew for EasyJet and resort rep for Kuoni UK in the Maldives
